1.E Conclusions

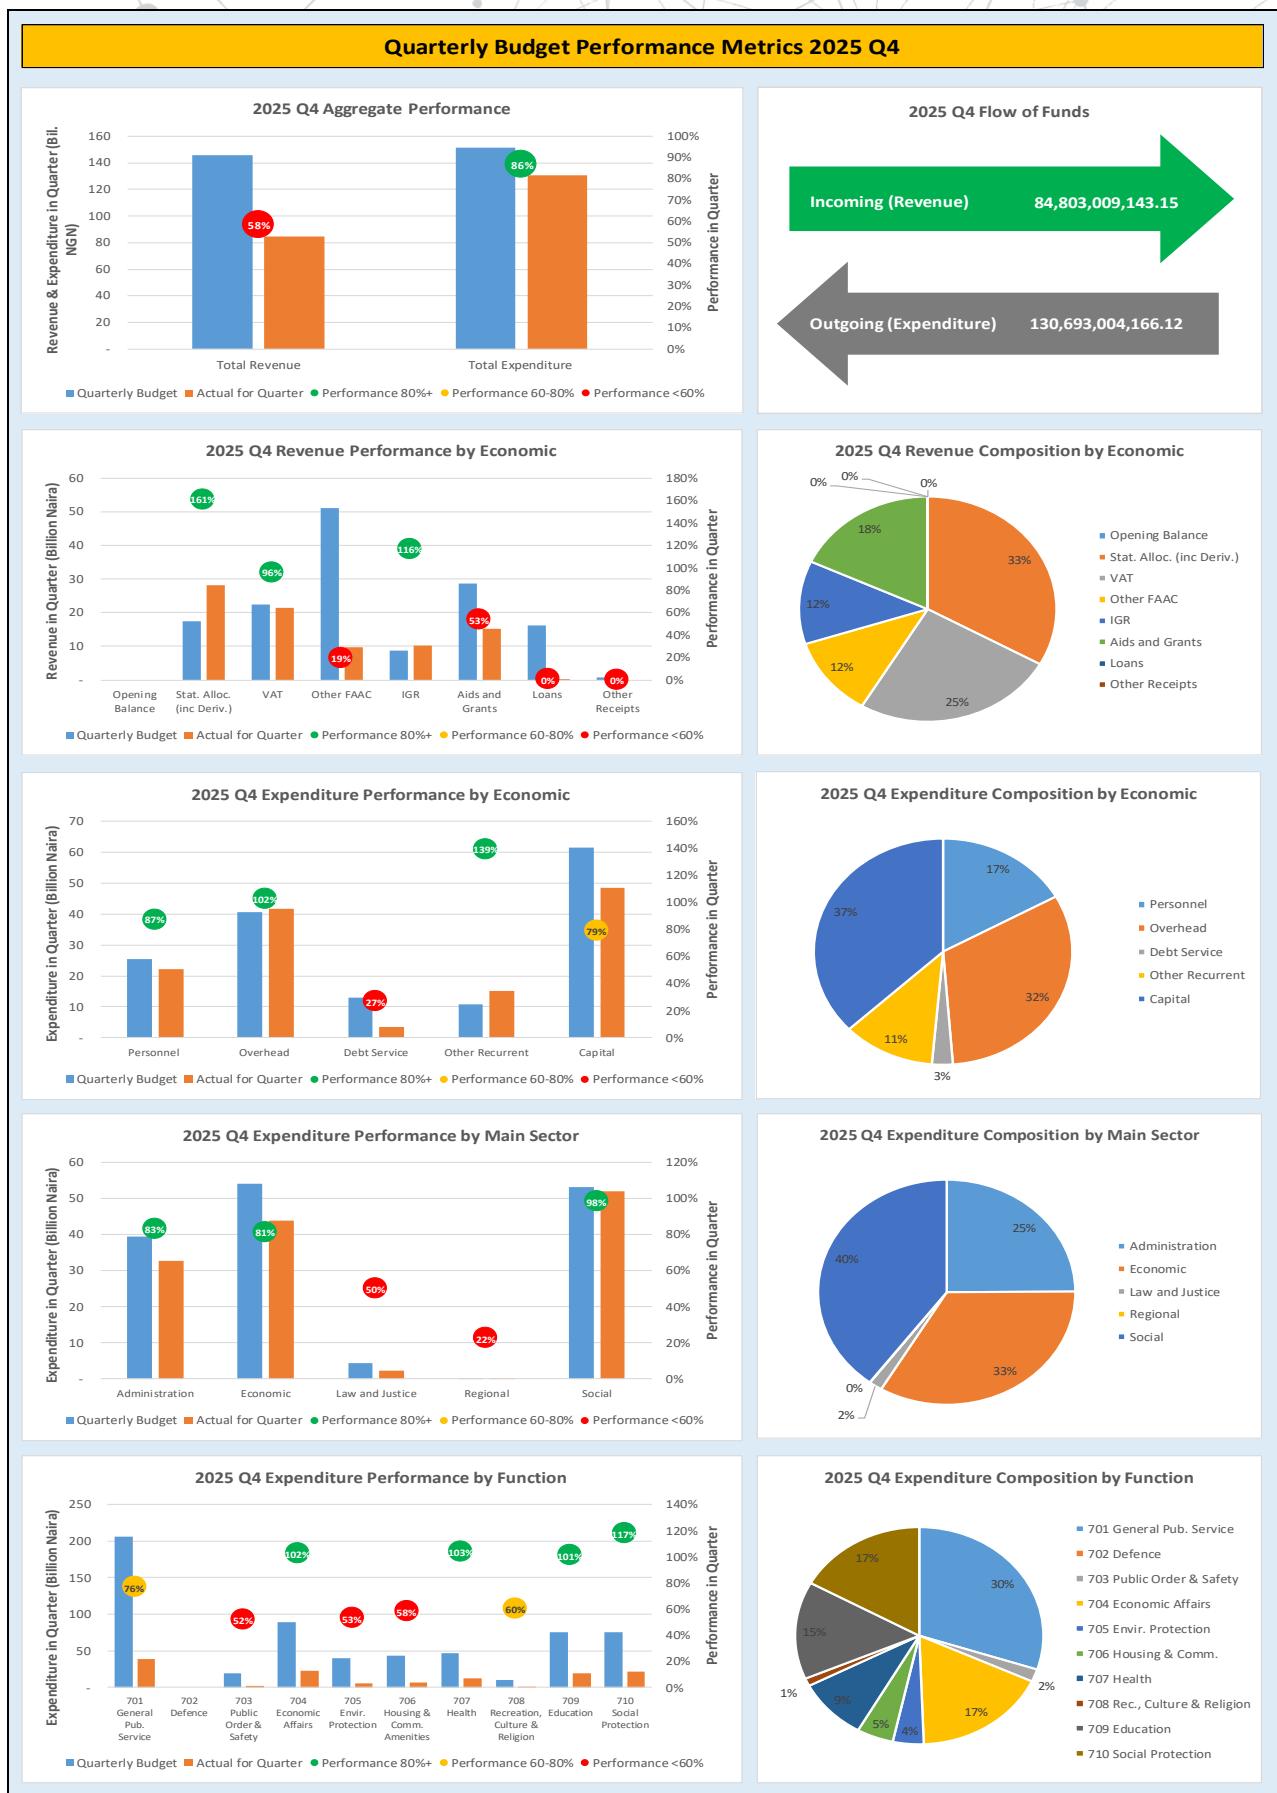

The Budget performance for the fourth quarter ended 31st December, 2025 stood at 71.30% revenue performance, including opening balance or 62.20% without opening balance, while actual expenditure performance stood at 71.20% of the total budget. While some MDAs over performed in the revenue due to more economic activities in their programme, others under performed due to the economic realities. Also, some MDAs actual expenditure under performed due to paucity of funds as a result of minor deviation from expected budgeted revenue.

Overall, this performance is reasonable given the prevailing harsh economic environment occasioned by nationwide security issues, the impact of the deregulation of foreign exchange and subsidy removal and inflation.
