

#### **KOGI STATE MINISTRY OF HEALTH**

**JUNE, 2023** 

**FORWARD** 

MTSS is a-3year Planning Strategy from where the annual budget frames work is derived. It spells out government agenda, programs and activities to achieve a healthy population to drive productions and productivity. The Health MTSS also spells out goals of the health sector and its programs and expected outcomes as contained in the rebranded New Direction Blue Print of Let' Do MORE of the present administration, a pursuant to achieving the SDGs targets.

The impact of these activities is monitored and evaluated through in-built mechanism.

The MTSS is meant to enforce Budget compliance and also prioritize programs and activities in the annual budget.

Strict compliance to Budget execution brings to an end the notion that annual Budget is an annual ritual. This would go a long way in curbing the issue of abandoned projects that had hitherto bewildered our economy and society, because projects and programs that cannot be completed within a year budget framework are rolled over to the following year.

This would at the end help the State in her bid to ensure universal health coverage and further meet WHO standard of making health care services available, accessible and affordable to all in Kogi State.

The MTSS is coming at a very challenging but appropriate time for the health sector that is challenged with health workforce migration (brain drain) and insecurity. These factors have further compounded the dearth of human resources for health. In view of this, the health sector requires considerable appropriation to expand medical facilities, procure the required modern medical equipment, recruit human resource for the sector and boost the overall strategic response initiatives. Happily, this exercise, at this time, has provided us the opportunity to review our priorities towards addressing the emerging public health issues.

**Dr. Zakari Usman**Hon. Commissioner for Health
Kogi State

2

#### **ACKNOWLEDGEMENT**

As a Ministry, we greatly appreciate the leadership of His Excellency Alhaji Yahaya Bello, the Executive Governor of Kogi State for creating enabling environment for the production of the Health MTSS and the commitment of his administration to improving healthcare service delivery in the Kogi State. This has renewed the confidence of the people in governance.

I wish to appreciate my Hon. Commissioner, Dr, Zakari Usman, for the support and encouragements he gave in every bit of the process. This, no doubt, contributed immensely to the quick delivery of the document.

I would also like to acknowledge the valuable contributions of the members of the sector planning team, their efforts in ensuring the compilation of the MTSS. The Director and Staff of Planning, Research and Statistics of the Ministry of Health contributed greatly to the success of this work. I also want to appreciate the technical support and quality assurance provided by the Budget Team, Ministry of Finance, Budget and Economic Planning during the process of developing this document.

Mrs Rasak Falilat Yinka Permanent Secretary, Ministry of Health

#### **ABBREVIATIONS**

MTSS - Medium Team Sector Strategy
NTDs - Neglected Tropical Diseases

SDGS - Sustainable Development Goals

WHO - World Health Organization

NHSDP - National Health Strategic Development Plan SSHDP - State Strategic Health Development Plan

MFB&EP- Ministry of Finance, Budget and Economic Planning

HPRS - Health Planning Research and Statistics

MMR - Maternal Mortality Rate

IMR - Infant Mortality Rate

LEB - Life Expectancy of Birth

WEBA - Women in Child Bearing Age
TBA - Traditional Birth Attendant

HIV - Human Immune Virus

AIDs - Acquired Immune Deficiency Syndrome

MDGs- Millennium Development Economic Empowerment Development Strategy

Goals

NEPADS- New Partnership for African Development

NEEDS - National Economic Empowerment Development Strategy

KOSEEDS- Kogi State Economic Empowerment Development Strategy

HTS - HIV, Testing and Services

PMTCT - Prevention of mother to child Transmission

ART - Anti- Retroviral Treatment

#### Chapter 1

#### Introduction

#### 1.1 Aims and Objectives of the Document

A Medium-Term Sector Strategy (MTSS) is a Public Financial Management (PFM) tool that links policy, planning and annual budgets. While State policies outline the high level and long-term goals, MTSS presents costed necessary inputs and activities to deliver specific outputs in the medium term to achieve the long-term big picture of State policies. Thus, MTSS is the road map that translates long term ambition to medium term reality using clearly plotted priorities, deliverables and costs.

MTSS outlines the projects and programs that will be carried out in a sector over a three-year period and answer questions like:

- how much each programs and project will cost;
- where the funding for the projects comes from;
- Who will execute the projects; and
- When to execute the projects.

MTSS forms the basis of annual budget update. This ensures consistency in planning and reduces the potential for projects to be left incomplete or in-operational due to lack of future funding.

MTSS is part of reform process for improving delivery and conception of annual budget in the State. It is part of the overall plan of Medium-Term Expenditure Framework which was adopted by the State Government for its budgetary process.

This Medium-Term Sector Strategy (MTSS), covering the period of 2024-2026 contains proposed activities to drive and deliver the State Development Plan agenda as captured in the NEW DIRECTION BLUEPRINT, KOSEEDS, MTEP/MYBF, LET'S DO MORE and ANNUAL BUDGET DOCUMENT. It is within this framework that the Health sector articulates it's MTSS for 2024 – 2026 aimed at accurate planning and good governance towards overall socioeconomic development and prosperity of the State.

This is an activity-based technique at improving strategic planning and efficiency of public expenditure. This also aims at aligning the budget proposals of MDAs to their respective sector policies, targets and goals.

The MTSS will help government Ministries, Departments and Agencies (MDAs) make the best use of Kogi State resources to deliver public services and improve the welfare of citizens. It will streamline planning and budgeting; officers are encouraged to factor in on-going and future recurrent costs of maintaining capital investments; officers have the opportunity to allocate the

costs of capital investments over several years rather than one year, given that many capital projects take several years to complete. MTSS recognizes differences between sectors whilst it provides decision makers with a consistent framework for allocating sector budgets from year to year. MTSS encourages result-based planning, budgeting, monitoring and evaluation, performance driven management by shifting emphasis from input to output and outcome thereby delivering results to achieve policy goals.

#### 1.2. Summary of the processes used

MTSS development process commenced with consultations among Key policy makers from the sector on the process. As part of preparatory activities, the sector planning team conducted an annual performance assessment to establish baseline to guide the development of MTSS targets and strategies for achieving its objectives.

Membership of the Health sector team comprises of the Hon. Commissioner Ministry of Health, Permanent Secretary, Directors and other management staff.

Upon the receipt of the sector's resource envelop from the resource projections of Medium Term Expenditure Framework (MTEF), the coordinating directorate of the sector invited the Sector Planning Team for a meeting to discuss the sector envelop and work out modalities of sharing proportionately the contents of the envelop to the various units of the sector. After the meeting, the Directors came up with their departmental projects for the preparation of MTSS documentation.

The Annual Sector Performance Review (ASPR) which is a vital process in the development of the Health sector MTSS was conducted in the first quarter of 2023.

The overarching purpose of the ASPR is to:

- 1. Identify the status of interventions that had taken place in the sector in 2022 fiscal year.
- 2. Establish the performance status for 2022; identify the relationship between the financial investment, institutional/organizational capacity in the sector and the results.
- 3. Establish a performance trend on each of the outcome KPIs in the results Framework for the sector, where data are available.
- 4. Recommend optimal direction for realistic outcome targets in the Medium-Term Development Plan and the Medium-Term Sector Strategy.

This was undertaken by the sector Monitoring and Evaluation (M&E) officers with the guidance provided by the Director – M&E of Kogi State. Update information of KPIs to be provided by M&E Department in collaboration with Kogi State Bureau of Statistics. This process is vital as it tracks the Kogi State progress against planned outputs and outcome targets for the sector. The rollover process of the MTSS process is anchored on the outcome of this review. The key steps involved the Constitution of Core Team Members on MTSS and training of team members across the State MDAs. Other activities include:

- a) Review of existing High-Level Policy documents of Kogi State Government with focus on the delivery of the General Public Services sectoral goal in line with the overall State Policy Thrust such as Let's Do MORE Blueprint.
- b) Clearly articulates medium-term (three years) goals and programs against the background of the overall goals and the attainment of the overall policy thrust of the State.
- c) Identifying and documenting the key initiatives (that is, projects and programs) that will be embarked upon to achieve goals and objectives as enshrined in Let's Do MORE Blueprint.
- d) Costing and identifying key initiatives in a clear, accountable and transparent manner.
- e) Phasing implementation of the identified initiatives over the medium-term to achieve value for money.
- f) Defining the expected outcomes of the identified initiatives in clear measurable terms (KPIs).
- g) Linking expected outcomes to their objectives and goals.
- h) Linking the expected outcomes to specific (location, LGA, village, ward).

#### 1.3 Summary and Conclusion

The document which is Health Sector MTSS 2024-2026 is embedded with the following programmes

- i. Expansion/Up-grading of Health Facilities;
- ii. Access to Primary Health Care;
- iii. National Health Insurance Scheme Project;
- iv. Control and Prevention of HIV & AIDS;
- v. Control and Prevention of Common Killer Diseases.

#### With this State level goals:

- i. Availability of Health Care Services to all;
- ii. Accessibility of Health Care Services to all;
- iii. Health Care Services affordable by all;
- iv. Improve Health care services through control and prevention of diseases.

#### The Health Sector goal is stated below:

- i. To strengthen health care delivery;
- ii. Increase access to improve health care services;
- iii. To improve health status of Kogi State people;
- iv. To prevent and control different types of diseases.

#### Above all, the Health Sector MTSS 2024-2026 is targeting the following outcomes:

- i. To increase life expectancy;
- ii. Reduction in Maternal and Infant Mortality Rate;
- iii. To Improve Access to General Health Care;
- iv. Reduce prevalence of HIV/Aids;
- v. Reduce prevalence rate of preventable diseases.

#### 1.4. Outline of the Structure of the Document

Kogi State Health Sector MTSS 2024-2026 is structured into five chapters. Chapter one looks at the introduction with brief discussion on aims and objectives of the document, summary of the processes used, summary and conclusion and outline of the structure of the document.

Chapter two deals with the Sector and Policy in the State Health Sector MTSS 2024-2026 and Kogi State policies were discussed under the following headings: a brief background of the State; a brief introduction of the Sector; current situation in the Sector; overview of the sector's institutional structure; statement of the sector's mission, vision and core values; sector policy and sector's goals and programs.

Chapter three captures the development of sector strategy with the following sections: major strategic challenges; resource constraints; contributions from partners; program connections between Sector MDAs; outline of key strategies; justification; result framework and responsibilities and operational plan.

Chapter four summarizes the three-year expenditure projections as performance monitoring and evaluation and public involvement.

Chapter five examines sources of data against the results framework and conducting annual sector review.

#### Chapter 2

#### The Sector and Policy in the State

#### 2.1 A brief background of the State

Kogi State is one of the thirty-six (36) states that constitute the Federal Republic of Nigeria. Located in the North-Central geopolitical zone of Nigeria; the State was carved out of the Benue and Kwara States on 27th August 1991. As per 1999 Constitution of Federal Republic of Nigeria, the State comprises 21 Local Government Areas, (239 wards) which are divided into 25 State Constituencies, grouped into 9 Federal Constituencies and 3 Senatorial Districts.

Lokoja is the capital of Kogi State. Lokoja was also the first administrative capital of modern-day Nigeria. The State is also known as the Confluence State as this is where the Rivers Niger and Benue merged as one.

The State covers an area of 28,312.6 sq km sharing boundaries with Nine States and FCT as follows: -

Northern Boundary: Niger, Nassarawa and FCT.

Western Boundary: Kwara, Ekiti, Ondo, and Edo.
Eastern Boundary: Benue, Anambra and Enugu.

Kogi State is structured into 21 Local Government Areas and it comprises three major ethnic groups i.e. Igala, Ebira/Egbura and Okun (Yoruba) other minor groups include – Bassa Kwomu, Bassa Nge, Kakanda, Kupa, Ogori/Magongo, Nupe, Oworo, Gwari etc.

#### Climate

Kogi State has an average maximum temperature of 33.2°C and average minimum of 22.8°C. Lokoja, the State capital is generally hot throughout the year. The State has two distinct weathers, the dry season, which lasts from November to March and rainy season that last from April to October. Annual rainfall ranges from 1,016mm to 1,524mm. The vegetation of the State consists of mixed leguminous (guinea) woodland to forest savannah. Wide expanse of FADAMA in the river basin and long stretches of tropical forest in the Western and Southern belts of the State.

#### Demography

Kogi State has a total land area of 28,313.53 square kilometers and a projected population of 4.5 million people (2016 On line). It lies on latitude 7.49°N and longitude 6.45°E with a geological feature depicting young sedimentary rocks and alluvium along the riverbeds, which promotes agricultural activities. The State features ferrasols soil type and famous hills like Ososo hills, which spread from Edo State to the western part of Kogi State and Aporo hill on the eastern part. Another famous mountain is Mount Patti, which lies in Lokoja and stands at about 1500 meters above sea level.

#### **State level General Information on Population**

Age Group	Male	Female	Total
0 - 4 years	319,647	304,402	624,049
5 - 9 years	259,249	239,650	498,899
10 - 14 years	202,570	181,527	384,097
15 – 19	173,998	170,411	344,409
20 - 24	132,835	161,201	294,036
25 -29	118,076	154,652	272,728
30 – 34	98,618	113,253	211,871
35 – 39	80,731	82,439	163,170

TOTAL State Population	1,672,903	1,641,140	3,314,043
65 + years	52,439	39,394	91,833
60 – 64	30,672	23,638	54,310
55 – 59	22,235	17,882	40,117
50 – 54	51,396	40,015	91,411
45 – 49	55,861	43,938	99,799
40 - 44	74,576	68,738	143,314

<sup>\*</sup>Sources: National Population Census 2006

#### **Local Government Areas**

The headquarters of the Local Government Areas serve as important traditional, cultural and market centres in their localities. The Local Governments are; Adavi, Ajaokuta, Ankpa, Bassa, Dekina, Ibaji, Idah, Igalamela/Odolu, Ijumu, Kabba/Bunu, Kogi/Kotonkarfe, Lokoja, Mopa-Muro, Ofu, Ogori/Magongo, Okene, Okehi, Olamaboro, Omala, Yagba-East, Yagba West.

Agriculture, Forestry and other Bush Activities: Kogi State has extensive arable land for cultivation, with good grazing grounds for livestock breeding and large water bodies for fishing. Crops cultivated include yam, cassava, maize, guinea corn and groundnut. Rice production is encouraged in the flood plains of the rivers, while coffee, cocoa, and orange. Cashew nuts are produced in ljumu and Kabba/Bunu and Dekina LGAs. Farmers are engaged in share cropping schemes at lyagu, Alade and Adikena. Palm plantations are being rehabilitated and a standard agricultural mechanical workshop is being constructed for the maintenance of machinery.

The Kogi State Agricultural Development Project was established with an initial investment capital of N144 million to be drawn from a World Bank loan. This was done to improve 300 kilometres of rural roads, provide fifty points of potable water and distribute 50 tons of various farm inputs. Much emphasis has been placed on agriculture with substantial lumbering and saw milling carried out in the forest areas of the state (e.g ljumu and Kabba/Bunu LGAs).

Exotic plants such as teak (tectona grandis) and pulp wood are being planted in different parts of the State. Other basic economic activities include the unincorporated private sector with farmers, fishermen, artisans and people in other activities such as mechanics, vulcanizes, electricians, carpenters, bricklayers, plumbers and traders.

Mineral Resources: Kogi State is rich in mineral resources. Most of these minerals are available in commercial quantities and these include coal at Koton Karfe, Okaba and Ogboyaga; limestone and marble at Jakura, Ajaokuta, Osara, Ekinrin Adde and Itobe; kaolin at Agbaja and iron ore at Agbaja plateau and Itakpe hills. It is worthy of note here to highlight that out of the seven (7) mineral resources of focus by Nigeria in the effort towards diversification, three (3) of them are available in Kogi State in commercial quantities. These are Iron Ore, Limestone and Coal.

Coal was mined in Kogi State during the Nigerian civil war; limestone and marble are exploited at Jakura. Other minerals include feldspar at Okene and Osara; clay, cassiterite, columbite and tantalite at Egbe; gold at Isanlu, gems, quartz, mica and crude oil at Idah. At the present time however, attention is being given for the commencement of exploitation of Coal in Kogi East by Dangote group. The Federal Government has started giving the exploitation of Itakpe Iron Ore attention. For years now the limestone had continued to be exploited by Dangote into cement manufacturing.

**Industrial Development:** The available resources are land, water, minerals, agriculture and forestry, hydro power and electricity. Ajaokuta iron and steel and the tertiary educational institutions in the State are potential sources of input for industrialization, if properly developed and maintained. There were sixteen industrial establishments operating in the State in 1992. Development of the Ajaokuta Steel Company will lead to springing up of upstream and downstream industries in Kogi State.

The Itakpe Iron Ore Mining Company and the Ajaokuta Steel Company, both of which could generate subsidiary industries such as iron and steel, foundries, cement plant, tar installation plant, carbon black and carbon graphic electrodes industry light forging, metal fabrication and agricultural tools and implements industries.

**Development Potentials:** Kogi State endowments of natural resources include land, water, mineral and forest resources. The vast land area of the State provides adequate opportunity for the location of various types of industrial and other economic activities.

The water resources of Rivers Niger and Benue and their several tributaries could provide ample water supply for people, animals and various industries when fully harnessed. The confluence of Rivers Niger and Benue could be an important source of tourist attraction. Fishery could be developed on a large scale with allied fishery industries. The waterfalls at Osomi, Ogugu and Ofejiji are potential sources of hydro-electricity. The water from the rivers could support large irrigation schemes for raising various crops. The forests provide wood for timber and fuel.

**Local Sourcing of Raw Materials**: Agricultural products such as grains (maize, guinea corn, rice and others), root crops: (yam, cassava and groundnut etc) other Crops include beans, soya beans, cocoa and coffee provide the needed raw materials for cereals, flour beverages and other food processing industries. Livestock and fisheries could provide raw materials for meat and fish canning industries.

The forest has the potential to provide wood for plywood and other wood related industries to produce such items as toothpicks, matches and other household utensils while foliage and minerals are sources of raw materials for chemical and pharmaceutical industries. Mineral resources in the State can provide immense local sources of raw materials for the manufacture of various products.

Coal and iron ore provide raw materials for the iron and steel industry and for the manufacture of machinery, alloys, oxides, tools, rails, linoleum and fillers. Coal also provides raw material for making ammonia, tar, cyanide, explosives and organic compounds. Limestone and marble at Jakura, Oshokoshoko, Ajaokuta, Osara, Ekinrin-Adde and Itobe are raw materials for making cement, glass, lime, ceramics, carbon dioxide, ethylene, caustic soda, carbide, paint, floor slabs, terrazzo chips and building stones amongst others. Feldspar from Osara, Okene, Okoloke and Egbe, clay obtained in many part of the State could supply the needed raw materials for glass, ceramics and pottery. Kaolin from Agbaja is an important raw material for chalk making, paint, kaolin poultice and Plaster of Paris (POP).

Cassiterite, columbite and tantalite from Egbe are used for tin coating and alloys while talc and mica from Isanlu, Ogbom and Mopa could supply the raw materials for ceramics, paints and electrical equipment. Gold from Isanlu in Yagba East LGA, gems and ornamental stones from Lokoja, quartz from Okene, Okehi, Okoloke and Egbe, and crude petroleum from Ibaji are other important minerals in the state.

#### 2.2 A BRIEF INTRODUCTION OF THE SECTOR.

There are three tiers of Health Care Delivery Services in Kogi State, namely: - Primary, Secondary and Tertiary. Ministry of Health is responsible for the overall supervision of the health system. It also oversees all parastatals and Health

Training institutions under it with the exception of Specialist Hospital, Lokoja that is under the watch of Government House in accordance with the Law that established it. There is a Kogi State Hospitals Management Board (HMB) that coordinates and supervises the day to day management of 63 number(s) of Secondary Health Care facilities. Kogi State Health Insurance Agency with a mandate to provide every resident of Kogi State have equitable access to quality and affordable health care services irrespective of socioeconomic status to ensure Universal Health Coverage. Kogi State Primary Health Care Development Agency Coordinates and supervises 856 public Primary Health Care facilities. There are also 3 tertiary health care facilities and 163 registered Private Health Care facilities respectively.

Demand for Health Care Delivery Services has continued to increase due to sensitization and mobilization of the citizenry. For instance, outpatient facility attendance in year 2015 – 2016 grew from 375,963 to 445,582 (15%) thus the potential growth in demand for health care delivery services is in the affirmative. However, critical issues like Human Resource for Health and Financial access are militating factors to this potential grow in demand.

#### 2.3 The Sector Current Situation

Kogi State Health System, in line with the National Health Care Policy operates within the three-tier framework, with concentration on the Secondary level of Care. Though three tertiary Health facilities are operational in the State, the supervisory role on the provision of primary Health services in the Local Government Authorities had enhanced the data generation and referral practices in view of the operation of the Primary Health Care Development Agency (PHCDA).

- 1. Kogi State had won the Bill-gate award on the implementation of Immunization activities, on area where the Federal Government had an international award of complete eradication of Polio in year 2014
- 2. Many old Health institutions were rehabilitated through the Millennium Development Goals Projects in the State and a number of other Health Institutions were upgraded to provide for the need of the people.
- 3. However, the gains of this investments were truncated by the economic down turn as evidenced by:
- Increase in disease burden,
- Absence of professional staff in the health facilities
- Out of stock syndrome for prescriptions.
- Obsolete equipment.
- Lack of power and water supply.
- Absence of operational Health financing mechanism
- None existence of Public, Private Partnership model
- Uncoordinated donor recipient activities and a host of others.

Health Status indicator as applied to Kogi State includes the following: -

MMR, -556/100,000
 IMR -128/100
 L-E-B -50 Years
 Less than 1 USD -62.4%
 Penta 3 -71%
 Annual growth rate -3%

o Malaria mortality rate -156/100,000

Immunization coverage -54%
 Vitamin A Supplementation -33.7%
 Mosquito Net Usage -1.9%
 Exclusive breast feeding -11%

- Sanitation 35% urban 25% rural
- Safe Drinking water 65% Urban 30% rural
- Knowledge of HIV male 21% Female 18%
- o HIV prevalence rate 1.4%

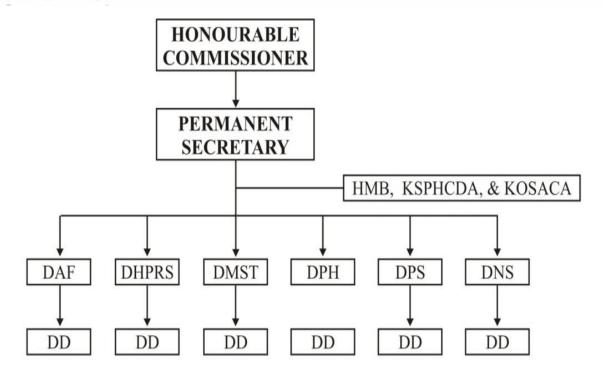

#### Population Projection for year 2022 - 2024

Subject	2021	2022	2023
Total Population	4,586,958	4,724,567	4,866,304
Under 5 years, 20%	917,392	944,913	973,261
Under 1 year, 4%	183,478	188,983	194,652
WCBA 22%	1009131	1039 405	1070587
Pregnant women 5%	229348	236228	243315
Annual growth rate	3%	3%	3%

#### The key challenges in the Health System include the following: -

- a. Shortage of staff, occasioned by retirement without replacement of professional Staff.
- b. Over concentration of support staff
- c. High level of attrition due to disparity in the payment of salary to health workers
- d. Low level of motivation
- (2) Excessive influence of the politicians on the health system. The professionals have limited rights and privileges in the administration of the health system.
- (3) Low level of funding; the implementation of a health financing mechanism is a sure way to relief the state of the burdens of budgetary provisions for the health system but this subject seems neglected by successive administrations.
  - (4) The dismal lack of interest in health system research has made the state to be incapable of generating their data for comparison with what international organization like making available.

#### 2. 4 OVERVIEW OF THE SECTORS INSTITUTIONAL STRUCTURE.

#### KEY:

DAF - Director Administration and Finance DPS - Director Pharmaceutical Services
DHPRS - Director Health Planning, Research and Statistics DNS - Director Nursing Services
DMST - Director Medical Services and Training DD - Deputy Director
DPH - Director Public Health

The sector is structured to carry out its statutory responsibilities in line with the National Health Act. The Honorable Commissioner is the Chief Executive Officer while the Permanent Secretary is the accounting Officer.

There are Six Directorates headed by Directors with the following responsibilities: -

Directorate of Medical Services and Training: This directorate is responsible for policy formulation; control and regulation of secondary (contrive) health care services.

Directorate of Pharmaceutical services: The directorate is responsible for enforcement of drugs policies, procurement, storage and distribution of drugs, etc.

Directorate of Health Planning, Research and Statistics: This directorate is responsible for Development of Plans, Monitoring and Evaluation, Data collection and initialization of information for informed decision-making process, research activities etc.

Directorate of Administration: The department is saddled with personnel matters

Directorate of Finance and Account: The department is saddled with financial matters

Directorate of Nursing Services: The directorate Regulates, formulates and implements policies that relate to Nursing Education and Practice.

Directorate of Public Health Services: The department responsible for the implementation of National policies, that address Public Health Issues, carries out Health Promotion Training and development of public health staff.

#### 2.5 STATEMENT OF SECTOR'S MISSION, VISION AND CORE VALUES

#### **2.5.1 MISSION STATEMENT**

To develop and implement appropriate policies and programs as well as undertake other necessary action that will strengthen the Health System to be able to deliver effective quality, equitable and affordable Health Care.

#### 2.5.2 VISION STATEMENT

To reduce mobility and mortality rates due to communicable diseases to barest minimum, reverse the increasing prevalence of non-communicable diseases; meet global targets on the elimination and eradication of diseases and significantly increase the life expectancy and quality of life of Kogi People.

#### 2.5.3 CORE VALUES

- Professionalism
- Interdependence
- Leadership
- Integrity
- Prudence

#### 2. 6 SECTOR POLICY THRUST

The major thrust of health policy is to improve access to healthcare and improve the efficiency of the healthcare delivery system. Kogi State Government will provide community oriented primary healthcare services and ensure the improvement of health indicators in the State.

Health is on concurrent legislative list and the local government; state and the federal authorities have the right to design and define the contents of their provision within the peculiarity of their situation as long as it does not contradict the position of a higher authority on the same subject.

It is on this note that Nigeria adopted national health care policy that is within the frame work of NEPAD. (A pledge by all African Nations on common vision and conviction that they have pressing duty to poverty eradication and place self on path to sustainable growth & development).

The MDGs and NEEDS were meant to be domesticated at the State level as SEEDS.

#### **Policy Definition**

In view of the above, the sector policy for health is centered on the world health assembly's assertion that primary health care is the corner stone of the members National Health Policy. It is the basic philosophy and strategy.

This strategy, in Kogi State is geared toward a level of wellbeing with which the people shall lead a socially and economically productive live at the highest possible level with the aid of structured interventions.

#### <u>Implementation</u>

The National Health Service is made up of three levels with a corresponding level of authority through an interwoven supervisory mechanism that encourages modeling in the spirit of leadership by example.

The Local Authorities are responsible for the provision of primary health services.

The State Authorities are responsible for the provision of secondary health services.

The Federal authority is responsible for the provision of tertiary health services but the interwoven supervisory mechanism and local peculiarity supports the federal authority to provide both models of primary and secondary health care while the states with enough resources may venture into the provision of tertiary health services.

This definition does not undermine the positions of nongovernmental organizations that aggregate informal sector resources to provide for health services.

In Kogi State, about twenty-Seven percent of the health facilities are nongovernmental and they provide for about 60% of the population health care needs.

#### 2.7 The sector's goals and programmes for the MTSS period

This is a summary of how the goals developed for the Sector over the medium term relate to the overall goals set at the level of Kogi State as contained in high level policy documents (Let's do MORE Blueprint, KOSEEDS, and Medium-Term Expenditure Plan). This is a way of demonstrating that the Sector Strategy contains specific means of achieving or contributing to the achievement of relevant high-level Policy Statements of Kogi State.

Table 1: Summary of State Level Goals, Sector Level Goals, Programs and Outcomes

S/N	State Level Goals	Sector Level Goals	Programs	Outcomes
1	Availability of Health	To strengthen health care	Expansion/Up-grading	To increase life
	Care Services to all.	delivery	Of Health Facilities	expectancy
2	Accessibility of Health	Increase access to	Access to Primary	Reduction in Maternal
	Care Services to all.	improve health care	Health Care.	and Infant Mortality
		services.		Rate
3	Health Care Services	To improve health status	National Health	To Improve Access to
	affordable by all.	of Kogi State people.	Insurance Scheme	General Health Care
			Project	
4	Improve Health care	To prevent and control	Control and Prevention	Reduce prevalence of
	services through	different types of diseases	of HIV & AIDS.	HIV/Aids.
	control and prevention		Control and Prevention	Reduce prevalence rate
	of diseases.		of Common Killer	of preventable diseases.
			Diseases.	
5	Availability of	To prevent Malnutrition	Conduct Nutrition and	To reduced the
	Nutritional	and increases the use of	Consumer Education	percentage number of
	Commodities in the	Ready-To-Use Therapeutic	on improved food	Malnutrition in of
	State for children	Food (RUTF) for the	quality and safety in	children under 5 and
	under 5 and Women of	Treatment of Sam and	the State	Women in child bearing
	childbearing age	Malnutrition		age in the State.

Table 2: Goals, programs and outcome deliverables

Sector Goals	Programs	Outcome	KPI of Outcomes	Baseline (i e		Outcome Target	
		Deliverables		Value of outcome in 2022)	2024	2025	2026
To strengthen health care delivery	Expansion/Up- grading Of Health Facilities	To increase life expectancy	Increase in access to maternal and child health services	48years life expectancy	49 years life expectancy	50years life expectancy	51 years life expectancy
Increase access to improve health care services.	Access to Health Care.	Reduction in Maternal and Infant Mortality Rate	Increase in access to maternal and child health services	NA	50% reduction in maternal and infant mortality rate	55% reduction in maternal and infant mortality rate	60% reduction in maternal and infant mortality rate
To improve health status of Kogi State people.	National Health Insurance Scheme Project	To Improve Access To General Health Care	Available of standard health packed (SHP)	-3 functional sites of CBHIS. -Bill awaiting passage	Total flag off of formal sector programs	Total population coverage & monitoring of sites.	Monitoring of Implementation.
To prevent and control different types of diseases	Control and Prevention of HIV & AIDS.	Reduce prevalence of HIV/Aids.	Level of community and state involvement in service delivery	Coverage of HTS,PMTCT &ART is at 46%	Increase coverage of HTS,PMTCT &ART to 60%	Increase coverage of HTS,PMTCT &ART to 75%	Increase coverage of HTS,PMTCT &ART t HCT,PMTCT &ART to90%
	Control and Prevention of Neglected Tropical Diseases.	Control and eliminate NTDs	Availability of NTDs medicine,	Coverage is at 81%	Sustain the Coverage level	Sustain the Coverage level	Sustain the Coverage level
To prevent Malnutrition and increases the use of Ready-To-Use Therapeutic Food (RUTF) for the Treatment of Sam and Malnutrition	Conduct Nutrition and Consumer Education on improved food quality and safety in the State	To reduce the percentage number of Malnutrition in of children under 5 and Women in child bearing age in the State	Increase access to Nutritional commodities to children under 5 and women of child bearing age in the State	NA	50% reduction of Malnutrition of children under 5 and women of child bearing age in the State	65% reduction of Malnutrition of children under 5 and women of child bearing age in the State	70% reduction of Malnutrition of children under 5 an women of child bearing age in the State

#### **Chapter 3**

#### The Development of Sector Strategy

#### 3.1 Major Strategic Challenges

- Inadequate funding of the MTSS
- Inadequate Human Resource occasioned by shortage of Staff in the department of PRS
- Consultations were made difficult as the relevant Health Personnel to be consulted are mostly on field.
- Necessary Data not readily available.
- Poor Electricity supply in the Ministry.

#### 3.2: Resource Constraints

Health sector funding has been inadequate and grossly below WHO standard of 15% of the annual budget to health. Even the limited fund has not been adequately released nor did the released properly channeling order of priority. Heath sector performance report for year 2022 is highlighted as follows:

A. REVENUE								
Revised Revenue Estimates 2022	Actual Collection 2022	%performance						
1,392,251,838	1,141,182,041.35	81.96%						
B. RECURRENT EXPENDITURES								
Revised Estimates 2022	Actual Expenditure 2022	%performance						
6,348,180,119	5,437,523,701.56	85.65%						
C. CAPITAL EXPENDITURES								
Revised Estimates 2022	Actual Expenditure 2022	%performance						
8,821,789,527	5,719,052,004.87	64.83%						

Table 3: Summary of 2022 Budget Data for the Sector

Item	Revised Budget (N) in 2022	Amount Released (N) in 2022	Actual Expenditure (N) 2022	Amount Released as % of Approved 2022	Actual Expenditure as % of Releases 2022
Personnel	5,418,925,425	5,042,698,680.72	5,042,698,680.72	93.06%	100%

#### 3.4 Program connections between Sector MDAs

Parastatals in the Health sector are Kogi State Hospitals Management Board, State Primary Health Care Development Agency, Kogi State Action Committee Aids, College of Health Science & Technology, Idah, Kogi State University Teaching Hospital, Anyigba, College of Nursing and Midwifery, Obangede, Kogi State Specialist, Lokoja. and Kogi State Insurance Agency.

KOGI STATE MEDIUM TERM SECTOR STRATEGY (MTSS)

The Ministry is responsible for setting out the policy and strategic direction for the health sector while the parastatals are responsible for the implementation of Programed of strategic activities.

With the MTSS strategies defined, the sector team developed capital and recurrent activities for the implementation of the medium-term plan. As specified above, a number of capital projects are currently ongoing and were accorded high priority in the MTSS for 2023 -2025. It is anticipated that recurrent costs for sustaining these projects would be factored into subsequent cycles of the MTSS. These include human resources, maintenance of infrastructure and vehicles and procurement of office consumables.

#### 3.6 Justification

Selection of criteria for prioritizing the Health Sector strategies to be implemented as part of the 2024 - 2026 MTSS were premised on the need to identify high impact interventions for the achievement of the revised sector policy. Following the conduct of the research leading to the formation of Medium Term Sector Strategies and the focus on the good governance as a major economic alternative to leveraging governance, the sector team engaged the selection process with the view to ensuring that the identified strategies to be implemented are well aligned with the goals and objectives of the medium-term plan derived from the State Development Plan and New Direction Blueprint/Let's do MORE. The selection process is based on the following criteria

Criterion 1: Evidence that the Existing Projects are indeed Ongoing

Score	Does the budget commitment correspond to an ongoing project?
4	Abundant and convincing evidence that project is ongoing (e.g. ExCo approvals; contract awards; details of contractor(s); detailed project work plan with deliverables, milestones and targets; engineering designs; cost revisions; contract variations; implementation progress reports; etc.)
3	Sufficient and convincing evidence that project is ongoing.
2	Some evidence or moderate evidence that project is ongoing.
1	No substantial evidence that project is ongoing.

#### **Criterion 2: Clarity of Current Justification for Budget Commitment**

Score	How well can the Sector account for the level of funds currently allocated to that Budget Commitment?
4	Very Well – All cost components can be clearly identified and a strong argument presented for all
	costs
3	Well – The cost components can be clearly identified, although not all can be fully justified as
	necessary
2	Moderately – Some but not all of the cost components can be identified, with limited justification
1	Not at all – The cost components can be neither identified nor can these be justified.

#### **Criterion 3: Current Impact of Budget Commitment**

Score	What are the Tangible Positive Impacts of the Budget Commitment?
4	Abundant and convincing evidence of substantial positive impact from existing commitment
3	Sufficient and convincing evidence of moderate positive impact
2	Some evidence of moderate positive impact
1	No substantial evidence of positive impact

#### Criterion 4: Likelihood of Completion in 2024 – 2026 Timeframe

Score	How well can the MDA justify that the current budget commitment and planned future spending will complete the project, and run the project post completion? This should be based on the contract awarded and the data collected.						
4	All evidence suggests that the project will be completed with the budgeted funds and that future						
	ng costs have been fully taken into account						
3	MDA can show that the project is likely to be completed with budgeted funds and future running						
	costs have been adequately considered						

2	MDA can show that budgeted funds will allow for substantial progress but not completion and
	future running costs can be identified
1	Not at all – allocated funds will not allow for substantial progress nor can future running costs be
	adequately identified

Criterion 5: Relation to the Sector's goals

Score	How critical is this project to the achievement of the Sector's goals under the Vision 20:2021, Kogi SEEDS or other Policies, etc?
4	Vital – Goal cannot be achieved otherwise
3	Important – This project will make a substantial and measurable contribution to achieving the goal
2	Moderately – This project will make some contribution to achieving the goal
1	Limited – the project will make no significant contribution to achieving the goal

Secondly, the selected strategies are capable of delivering verifiable results within the limited resources allocated and in the shortest possible time. The current approach is a remarkable departure from the previous experience where annual budget were developed without recourse to the desired impact of those expenditure but on the arbitrary allocation of resources on budget-lined items.

With the MTSS approach, which is result-based budget all costs interventions are linked to the achievement of the MTSS outputs, outcomes and Impact as defined in the New Direction/Let's do MORE Blueprint policy framework. Consequently, the sector will be able to assess progress of the MTSS key performance indicators (KPIs) and the cost effectiveness of the budgeted expenditure.

#### 3.7 Result Framework

Though the result framework details the targets to be achieved by the MTSS, it is important to understand that the outcome targets were central in the definition of the key programs and projects of the MTSS. These key performance indicators are in alignment with the performance for the sector.

The Ministry and its parastatals are expected to develop their annual operation plan with its cost in response to the output targets defined in the sector result frameworks Table 11.

#### 3.8 Responsibilities and Operational Plan

Following the development of the MTSS 2024 – 2026 for the Health sector, it is anticipated that all the departments in the Ministry of Health and her Agencies/Parastatals in the Health sector would derive their annual operation plan activities from the strategies of the Medium-Term Plan.

The operational plans would aid the various departments, agencies/parastatals to articulate their individual action plans as well as facilitate the estimation of the quarterly departmental cash flow projections for the 2023 financial year.

#### Chapter 4.

#### Monitoring and evaluation

#### 4.1 Performance Monitoring and Evaluation

Monitoring and evaluation of Health activities in MTSS 2024 -2026 is a vital component of the MTSS implementation process and because it provides the mechanism for tracking and reporting on the execution of planned activities and progress towards the achievement of the set targets. It further allows for challenges, constraints and success factors in MTSS implementation to be identified. These are necessary for learning lessons and informing how the MTSSs are revised in the future.

In the process of monitoring and evaluation, due consideration is accorded the source of data especially information that tracks the performance of outcome and output indicators.

During the conduct of the monitoring and evaluation exercise, the following performance of the Health Sector for three years is summarized in table below.

Fiscal Year	Total Budget (Capital&	Actual Exp (Capital. &	Rate of Implementation	Variance		
	Recurrent)	Recurrent.)	(%)			
2021	17,195,490,423	9,785,036,633.92	56.90%	100%		
2022	15,169,969,646	11,156,575,706.40	73.54%	100%		
2023	19,245,563,400	2,088,393,313	10.85%	100%		
Total	51,611,023,469	23,030,005,653.32	141.29%	100%		

#### 4.2 Public Involvement

Involvement of the public is the stakeholder in the preparation of this medium term sector strategy, cannot be over emphasized as the planning and execution start and end with the public as the beneficiaries.

Represented of House Committees on Health& Social Welfare, Finance, Appropriation and Budget Monitoring, Civil Society Organization and Interest Group have their input in preparation of this document.

Collect data and information																								
Review national Policy Guide																								
Refine State Policy Outcomes																								
Receive Expenditure Envelopes																								
Develop sector strategies and costs																								
Review strategy within ceilings																								
Prepare Draft MTSS Document																								
Receive Budget Call Circular																								
Refine MTSS and compile Budget																								
Defend Budget using MTSS																								
Make Operational Plan																								

### 5.1 Identifying Sources of Data against the Results Framework

Table 12: Data Sources for Outcome and Output KPIs

Outcome KPIs	Possible Data Sources
Increase in access to maternal and child health services	Feedback from beneficiaries and MOH
Increase in access to maternal and child health services	Feedback from beneficiaries and MOH
Available of standard health packed (SHP)	Feedback from beneficiaries and MOH
Level of community and state involvement in service	Feedback from beneficiaries and MOH
delivery	• :
Availability of free drugs and medical education	Feedback from beneficiaries and MOH

Output KPIs	Possible Data Sources
Increasing immunization coverage	Feedback from beneficiaries and MOH
Frequency of disposal Medical waste	Feedback from beneficiaries and MOH
Number of state Hospitals equipped with medical	Feedback from beneficiaries and MOH
Equipment.	
Number of Zonal Hospitals provided with infrastructure	Feedback from beneficiaries and MOH
& medical Equipment.	
Level of accreditation status attained	Feedback from beneficiaries and MOH
Status of Accreditation	Feedback from beneficiaries and MOH
Numbers of Hospital Equipment Provided	Feedback from beneficiaries and MOH
Number of General Hospital &Cottage Hospital	Feedback from beneficiaries and MOH
Percentage/Level of Completion	Feedback from beneficiaries and MOH
Numbers of additional facilities constructed	Feedback from beneficiaries and MOH
Numbers of additional facilities constructed/upgraded	Feedback from beneficiaries and MOH
Number of Hospital upgraded & remodeled	Feedback from beneficiaries and MOH
Cancer Center Constructed	Feedback from beneficiaries and MOH
Eye & Cottage Hospital renovated & equipped	Feedback from beneficiaries and MOH
Mini Drugs Manufacturing Unit constructed	Feedback from beneficiaries and MOH
Renal Dialysis Center Constructed	Feedback from beneficiaries and MOH
Number of Primary Healthcare upgraded to Cottage	Feedback from beneficiaries and MOH
Hospital	
Central Reference Hosp. Okene constructed & functinal	Feedback from beneficiaries and MOH
Specialist Hospital renovated & remodeled with	Feedback from beneficiaries and MOH
Psychiatrist Hospital establish	
Kogi State University Teaching Hospital upgraded to	Feedback from beneficiaries and MOH
standard.	
40 Bed Cottage Hospital Odu Ogboyaga Constructed &	Feedback from beneficiaries and MOH
equipped	
Administrative block provided	Feedback from beneficiaries and MOH
Renovation/Fencing carried out	Feedback from beneficiaries and MOH
Laboratory Call Room Constructed	Feedback from beneficiaries and MOH
Oxygen Plant Available & Functional	Feedback from beneficiaries and MOH
Ventilator Machine Available & Functional	Feedback from beneficiaries and MOH
Physiotherapy Machine Available & Functional	Feedback from beneficiaries and MOH
Incubator Machine Available & Functional	Feedback from beneficiaries and MOH
Ministry of Health Landscaped and Finished	Feedback from beneficiaries and MOH
State Central Medical Store rehabilitated	Feedback from beneficiaries and MOH
Functional E-Health provided	Feedback from beneficiaries and MOH
Accreditation status of Courses in College of Nursing,	Feedback from beneficiaries and MOH
Obangede sustained.	
Number of Furniture Provided	Feedback from beneficiaries and MOH

Number of Health Professional Trained	Feedback from beneficiaries and MOH
Number of Ambulances Procured/Refurbished	Feedback from beneficiaries and MOH
Number of Blood Banks Procured	Feedback from beneficiaries and MOH
Number of World Bank Assisted-HSDP II Maintained in 21	Feedback from beneficiaries and MOH
LGAs	
Number of Alternative Energy Maintained	Feedback from beneficiaries and MOH
Number of Primary Health Care Centres Renovated	Feedback from beneficiaries and MOH
Conduct of National Health Account in the State	Feedback from beneficiaries and MOH
Number of beneficiaries/patients treated	Feedback from beneficiaries and MOH
Availability of Health commodities & consumables	Feedback from beneficiaries and MOH
Number of emergencies responded to	Feedback from beneficiaries and MOH
Number of emergencies/outbreak Responded to	Feedback from beneficiaries and MOH
Number of Vaccine Cold Chain Stores maintained	Feedback from beneficiaries and MOH
Numbers Medical Tele Consultation & Free Call received	Feedback from beneficiaries and MOH
Number of Health Research conducted	Feedback from beneficiaries and MOH
Number of Health activities designed & carried out	Feedback from beneficiaries and MOH
Numbers Of enrollee in state Health insurance Scheme.	Feedback from beneficiaries and MOH
Number of Covid-19 Response activities designed &	Feedback from beneficiaries and MOH
carried out	
Number of Drug Control Programmes/Activities carried	Feedback from beneficiaries and MOH
out	
Numbers of Mortuaries renovated	Feedback from beneficiaries and MOH
Number of Public Health outbreak Responded to	Feedback from beneficiaries and MOH
Percentage of coverage of Nutrition activities in the State	Feedback from beneficiaries and MOH
Number of Disease Outbreak response	Feedback from beneficiaries and MOH
Data obtained from State Emergency Routine	Feedback from beneficiaries and MOH
Immunization Coordinating Center	
<u> </u>	

#### 5.2 Conducting Annual Sector Review

Annual Sector Review was conducted in first quarter of the year 2023. The review was carryout by MTSS sector committee who visited the heads of each department and parastatals/agencies under the Sector on the needs for this review. Later questionnaires were given to them to;

- 1. Identify the status of interventions that had taken place in the sector in the 2022.
- 2. Establish the performance status for 2022; identify the relationship between the financial investment, institutional/organizational capacity in that sector and the results.
- 3. Establish a performance trend on each of the outcome KPIs in the results Framework for the sector, where available data is available.

Recommend optimal direction for realistic outcome targets in the Medium-Term Development Plan and the Medium-Term Sector Strategy.

#### 5.3 Organisational Arrangements

This section provides outline responsibilities for monitoring work, which collect data and the officers responsible for performing analysis. The following are the outlines of monitoring work:

- 1. To ensures inputs are made available at all time of the MTSS work and other decision to be taken;
- 2. To provides a continuous feedback system to the government/developing partners through the life cycle of a project;
- 3. To involves keeping surveillance on the sector projects
- 4. To also involves overseeing and periodic review of each activity of sector at all level of implementation;
- 5. To ensures that adjustment can be made and correction effected in an on-going project;
- 6. To also ensures that resources are used judiciously and quality project implementation
- 7. To communicates effectively to the Stakeholders on how goals and objectives of projects are being met Besides, data collection is carried out by Monitoring & Evaluation unit Staff in all MDAs and State. Data analysis is done by Monitoring & Evaluation Officers in collaboration with Budget staff. The type of information needed will determine the type analysis to be used. The data analysis can be carried out manually or the use of software design for M&E purposes.
